

# University of Leicester 'Adult Inpatient Diabetes' MSc module

Diabetes inpatient care is now recognised as being a specialist area of care and part of the “Super 6” . It is important that healthcare professionals working in diabetes have access to continual professional development and relevant training and qualifications when working with diabetes inpatients. The University of Leicester has a wealth of “diabetes specific” MSc modules that can help you gain the relevant expertise and qualifications to support your practice. The diabetes “inpatient” module can be taken as part of a complete MSc or as a stand alone module.
