

The FreeStyle Libre system leads to a rapid and sustained increase in testing frequencies^{1,2,3,5}

T2DM - REPLACE

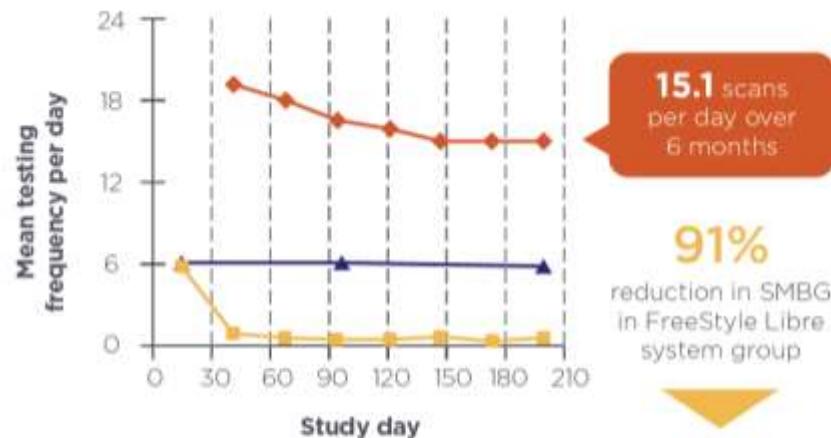

Baseline SMBG frequency was 3.8 and 4.0 per day for the FreeStyle Libre system and control groups respectively

FreeStyle Libre system scans

SMBG frequency (SMBG group)

T1DM - IMPACT

Baseline SMBG frequency was 5.5 and 5.8 per day for the FreeStyle Libre system and control groups respectively

SMBG frequency (FreeStyle Libre system group)

SMBG = self-monitoring of blood glucose; T1DM = type 1 diabetes mellitus; T2DM = type 2 diabetes mellitus
