To Whom it May Concern

Field testing draft NICE guidance on the prevention of type 2 diabetes: risk identification and interventions for high risk individuals.

This is to confirm that Word of Mouth has been appointed by NICE to undertake the field testing of draft NICE guidance on the prevention of type 2 diabetes: risk identification and interventions for high risk individuals.

Word of Mouth will be conducting workshops in London, Manchester and the West Midlands and will be carrying out a series of interviews predominantly, but not exclusively, in these geographical areas. An on-line survey will also be carried out.

We do hope that you will be to assist Word of Mouth in this matter. Please contact me at the email address below if you require further information.

Yours sincerely

Tricia Younger
Associate Director
Centre for Public Health Excellence
National Institute for Health and Clinical Excellence
